Registration for Diploma work/Project, Academic year 2017-2018¹

I, apply to² diploma work of hp, course code³ at
Name Swedish civic number

.....
Department, Company Division e-mail address phone

Studies on this course are⁴: ☐ full time ☐ half time Starting date (yyyy-mm-dd):

Theme/title of work (preliminary)

☐ This is a project extension Motivation for the extension (as agreed with supervisor and course leader):

☐ We, the undersigned student and supervisor, have taken part of the Science faculty rules for diploma works:

A short project plan (max. one A4 page) should be attached to this registration form on handing in.

Half-time meeting is planned on (yyyy-mm-dd): (NB Confirm a week in advance!)

Deadlines for project reports: December 18, 2017 for single-term and May 7, 2018 for two-terms projects

Examination planned in: ☐ January 2017 ☐ May 2018 Other occasion⁵, namely (yyyy-mm-dd):

☐ The project deals with data, results or methods that **can not** be made public for ethical, commercial or other confidentiality considerations.

Assessment criteria:

- Working effort, dedication
- Engagement: questioning, profound thinking and seeking, not content with ready answers
- Independence⁶, own analysis, own conclusions, originality⁷
- Report⁸ and oral presentation: Time planning, structure, communication, clarity
- Ability to put one's own work into a context, regarding applications, impact on society, ethics and so on.

Basic Requirements

- To be registered (compulsory at each semester start) you must have applied for the course and been accepted.
- You also, in general, should be registered on a Physics program at the Science Faculty of Lund University.
- You must also attend the introduction meeting.
- By the introduction meeting, you need to have found a subject and a supervisor, to start your project in time.
- You must sign this form and hand it in⁹. In doing so, check that you are registered.
- For diploma works spanning more than one semester, registration must be done at the beginning of each semester.
- Students requiring special attention or support should contact Study Support and Advising Services (Pedagogiskt stöd) and the Student Counsellor (Studievägledare) prior to the registration.
- You must read and accept the contents of Appendix A "To Prepare, Perform and Present".
- *For supervisors: Diploma work fulfilled in every respect and registered at the Physics Department entitles department at LU to 6 kSEK per 15 hp module. The cost account is 156136.*

¹ Filling in and signing this registration form certifies that student and supervisor have accepted the content of it and its attachments.

² To find LU sites Google for "Academic Conduct+Lund University". Signing this registration implies you have done this and are fully aware of what Academic Conduct implies. A zero-tolerance policy against e.g. plagiarism is applied.

³ For course codes, see <http://www.fysik.lu.se/english/education/for-students/diploma-work/>

⁴ For the bachelor diploma a half-time speed is strongly recommended

⁵ Right to prolonged supervision ends if examination is postponed more than two months.

⁶ Report and oral exam should clearly display what the student's contributions and results are.

⁷ Quoted/copied sources should be referenced and found in bibliography. Immaterial rights should be respected; see footnote 2.

⁸ The Report is a public act, and should take into consideration the faculty education plan at LU.

⁹ Original to Claudio Verdozzi, copy to student and supervisor.
